JOSEPH METTIMANO
PRESIDENT & CEO

"No one should live hungry and homeless."
Matthew 25:35-40

"This is much more than a job. Every process that you are doing is impacting someone's life in a positive manner, and it's centered around Christ."

MISSION

Central Union Mission has a rich history. Started in 1884 to help homeless Civil War veterans, the Mission has grown to meet the challenging needs of people experiencing homelessness and poverty while remaining faithful to its founding by a central union of DC churches.

One life at a time, the Mission works to help transform the area's toughest rehabilitation cases—including drug addicts, gang members, criminal offenders and the chronically homeless—into productive members of society. The Mission's programs have an extremely high success rate at helping individuals overcome their issues and achieving independent living.

Charity Navigator has rated Central Union Mission as a four-star charity, GuideStar awarded Central Union Mission a Gold Seal for our financial transparency and GreatNonProfits has given Central Union Mission a Top-Rated award.

IDEAL CANDIDATE

The new Controller is well-educated, professional, and internally motivated, but that's only the beginning. If this is you, you have a drive for excellence in every area of your life ... a drive that is deeply connected to meaning and mission. "Spread the gospel, feed the hungry and shelter the homeless" is a purpose that resonates with you

As one who is created in the image of God, you value those around you. You recognize that process is just as important as the outcome and that people matter. You have a desire to serve others and to be part of an organization where authentic servant leadership is the modus operandi, where people roll up their sleeves and do whatever is needed.

You have a yearning to change things for the better, to take what's good and make it great. The idea of working with a world-class organization is something you can get up for every day, and the freedom to do it with creativity and excellence is not something you want to miss. You're energized by the opportunity to support expansion and the challenge of implementing new systems. You'd rather develop tools that enable than bureaucratic policies that stifle.

Of course, not every day is ideal. It helps to be "thick-skinned" and for resilience to be a well-developed norm. You recognize this is part of being in a growing organization and you're happy to take on those challenges. You find yourself grateful each day to be part of a high-functioning senior leadership team and surrounded by colleagues who support and pray for each other. You realize that this is the job that finally connects excellence with purpose.
